## HCKC RACING OPERATING PROCEDURES

To keep our local communities safe along with our fellow members of Hill Country Kart Club the following guidelines shall be required. Failure to follow these guidelines may result in the loss of any championship points gained during 2020 and/or a suspension of your family membership. Stay home if you feel sick, if you have a fever of 100.0+, or if you have been in close contact with a lab confirmed COVID-19 individual.

***THE FOLLOWING PRACTICES ARE FOR THE TRAILER/PIT PARKING AREA.*** Members shall maintain a distance of (10') between pit canopies and stagger trailer parking where needed to maintain this distance. Do not park in a way that creates less than this distance, otherwise you will be asked to move.

HCKC will use a touchless registration system and total entries will be limited to no more than 65 per event (~50% of our event capacity) – everything must be done prior to a racing event using <https://hckc.motorsportreg.com/> All pit-pass armbands will be done using the new MotorSportReg features developed specifically for racing venues. At this time you may not race or attend the event without using the online system. No sales will be made on-site.

The tower will be closed to registration personnel only. Scoring transponders will be handed out based on registration.

Hand wash stations will be provided at various locations spread out through the pits and outside the restrooms. The individual's group may not exceed the greater of the individual's household or up to 5 individuals who arrived at the facility together. All WKA/HCKC safety rules are still in effect.

***THE FOLLOWING PRACTICES ARE FOR THE GRID/RACING SURFACE.*** The facility will be limited to 50% of our normal operating limits. Spectator seating will be limited to members only for the time being. We will do our best to setup a streaming camera system for family members at home to follow along. Gate will be closed once most racers are in the facility.

- While in the grid area each racer will leave one extra empty space, this will create more than the required 6' of separation. You are required to wear your helmet from your pit stall to the grid.
- While at the scales you must leave extra space, do not take off your safety gear until you reach your pits.
- Masks on at all times and social distance – unless you have a medical condition preventing you from wearing a mask.

All WKA/HCKC required safety equipment is required; this includes neck brace, personal helmet, racing suit, shoes, and gloves – or chest protector where required by age. Participants shall only use their own racing equipment, please do not share. Each participant shall maintain cleaning supplies in their trailer/grid stall. The mechanic/family member in charge of the participant's kart may stand in the cut-thru area provided that they socially distance themselves by 6' or more between other members/participants. Members shall keep their safety equipment and steering components clean, do not let other people outside your group use your equipment and/or tools.

## HEALTH PROTOCOLS FOR INDIVIDUALS:

<https://open.texas.gov/uploads/files/organization/opentexas/OpenTexas-Checklist-Outdoor-Motorsports.pdf>

Wash or disinfect hands after any interaction with members outside your group, or items (bleachers, bathrooms, barriers, etc.) in the facility.

Combination of Outdoor Motorsports Events and Outdoor Events

- The individual's group may not exceed the greater of the individual's household or up to 5 individuals who arrived at the facility together. We ask that where possible please limit this amount to just the participants and 1 mechanic/family member.
- Cleaning supplies will be provided in each restroom and designated members will oversee daily disinfection of the surfaces. Members at all times will have access to covid approved cleaning supplies.

The virus that causes COVID-19 can be spread to others by infected persons who have few or no symptoms. Even if an infected person is only mildly ill, the people they spread it to may become seriously ill or even die, especially if that person is 65 or older with pre-existing health conditions that place them at higher risk. Because of the hidden nature of this threat, everyone should rigorously follow the practices specified in these protocols, all of which facilitate a safe and measured reopening of Texas. The virus that causes COVID-19 is still circulating in our communities. We should continue to observe practices that protect everyone, including those who are most vulnerable.
