The Southeast Division and the Central Florida Region aim to provide an inclusive, welcoming environment for all participants. Further, we fully support and endorse the National SCCA Welcoming Environment Policy. To that end, behaviors such as the following will be considered egregious examples of GCR 2.1.7, "Acting in an unsportsmanlike manner", and may be penalized as such:

1. Discriminating against, disparaging or verbally abusing a participant because of their gender, identity, ethnicity, marital status, sexual orientation, religion, age, or disability;
2. Harassing, intimidating, threatening or bullying any participant;
3. Doing any of the above outside the confines of the event, or in print or electronic media, in a way that affects that person's participation in an event.

The SCCA strives to ensure ALL participants at its events and activities enjoy a welcoming environment. The SCCA supports equality of opportunity and treatment for all participants and will make every effort to maintain an environment that is free of harassment, discrimination and any behavior that interferes with a safe, fun and exciting experience. A commitment to a welcoming environment and the SCCA Values is expected of all members and attendees; including drivers, workers, crew, guests, staff, contractors and exhibitors, and other participants at SCCA activities, sessions and social events when representing the SCCA in print or electronic media.

This event is held under the 2023 General Competition Rules, based on the 2023 GCR and Category Specifications, as amended for 2023 per "FASTTRACK", and the 2023 CFR Enduro Series Rules all as published on the appropriate websites. When exiting the track via pit lane, stay within the marked lane that starts at Speedway 4, paralleling the apron until the turn off to pit lane. In pit lane, stay in NASCAR fast lane to the right.

CAR ELIGIBILITY: Competition is open to all cars conforming to the GCR, as amended. IT7, IT7R, CF, SPO, SPU, SMSE, ITO, SC,

SMT and SMSET will compete under the SEDiv approved rules for Regional racing.

Additional Regional Classes below:

R1 & R2 Classes: For cars eligible to compete in sanctioned competition other than SCCA, but for which there is not an existing SCCA class. The cars must conform to the safety requirements of the IT category as a minimum. The cars must use DOT tires. The distinction between R1 & R2 will be determined solely by engine displacement. R1 will be for cars 2.8 liters and larger. R2 will be for cars with displacement less than 2.8 liters. Eligibility of a car for R1 or R2 will be at the discretion of the organizers.

Improved Touring – EZ Regional Class: The purpose of IT-EZ is to create a regional class where cars built for ChampCar, or similar endurance racing series will have a place to race on an SCCA Regional race weekend. As opposed to any other class of SCCA road racing, IT-EZ competition is designed as a “fun run” class, with no regard to balance of performance, or classes within the series. Class distinctions within the various series will not be enforced. Drivers must meet driver requirements as listed above in the DRIVER ELIGIBILITY paragraph of these Supplementary Regulations. Waivers will not be considered or granted in areas regarding safety of vehicle or driver. Decision of officials with regard to safety elements are final and not protestable. GCR 9.3.6. APPEARANCE NEAT AND CLEAN, will be waived for this class. IT-EZ vehicles may race with minor prior accident damage, as long as that prior damage does not create a danger to the driver of that vehicle, fellow competitors, or course marshals. Non-functional additions to vehicles, whose primary purpose is to express creativity or a theme, are not allowed. IT-EZ eligible vehicles must be a “mass produced,” gas or diesel powered, four wheel passenger car. Cars must meet or exceed safety requirements of GCR Section 9 for IT cars. Minimum weight of 1800 pounds and a maximum weight of 3500 pounds with a production-based engine. Maximum engine displacement of 3.0 L. Tires must conform to applicable Improved Touring rules, i.e., must be DOT rated tires, 130 (“H”) mph rated or faster. Wear-dated tires are not mandated, but they may be used if the racer prefers. Preparation regarding brakes, suspension, and engine must meet either Champcar/Lemons/Other series type rules or SCCA Improved Touring rules. Valid vehicle logbooks from other series must be presented to Tech and SCCA issued logbooks will reflect meeting IT safety rules, and driver safety rules for competition. Eligibility of a vehicle for ITEZ will be at the discretion of the organizers. Points and/or trophies will not be awarded.

VEHICLE LOGBOOKS: Each vehicle shall have a complete and up-to-date SCCA issued logbook per GCR 9.2.1. Each competitor participating in cars from non-SCCA series, must have a copy of their series rules in their possession.

SCHEDULE/RUN GROUPS: The event schedule or run groups may be changed at the discretion of the Chief Steward, with concurrence by the Race Chair, depending on pre-race/test day entry counts or as needed to accommodate situations that may be encountered during the event. If changes are made prior to the start of the event, as much notice as possible will be given to all affected competitors.

QUALIFYING / GRID POSITIONS: Cars will be gridded for the Sprint races based on the fastest time recorded for the car during the qualifying sessions. Cars will be gridded for the Feature Races based on the fastest time recorded during either the qualifying sessions or the Sprint race. Cars will be gridded for the CFR Enduro based on the fastest time recorded for the car in the Enduro qualifying session.

RESULTS: Qualifying and race results will be posted at Tech where drivers may also obtain a copy of the final results if available. Final results will be posted to the website, www.cfrscca.org, following the completion of the event.

CAR NUMBERS: Numbers, class designations, and SCCA decals will be placed and sized according to the GCR. Summit Racing SCCA decals are required. Cars not displaying the assigned number will not receive qualifying times. IMPORTANT: IT IS CRITICAL that the numbers on the right side of your car be large and clear enough to be read from above at a distance of approximately 100 yards. Cars with roofs, it would be very helpful if you have a roof number, facing drivers right. SEDiv permanent numbers will receive priority assignment when possible, depending on class groups, for entries received by the registrar by April 12, 2023.

CREDENTIALS: Proper credentials, closed toe shoes and shirts are required on pit lane and on the grid.

DAMAGES: Drivers may be held responsible for harm to property, including damage to the track and to the environment. Fees charged for the removal / disposal of hazardous waste or used tires may be assessed to the responsible driver.

CONTACT: A competitor involved in contact, or who has violated flag rules (yellow, black, red, or checker), must proceed directly to the SOC station or impound in the race car at the end of the session, and report to the Steward.

IMPOUND: The top 3 finishers in each class, must report to impound following the Feature Races. Cars will be weighed and a minimum of two compliance items will be checked. Cars will be impounded for a minimum of twenty (20) minutes, or until released by the Chief Steward. The Chief Steward may require additional inspection or additional cars to report to impound and competitors shall be responsible for the expenses of any required disassembly and/or reassembly.

GRID: Cars arriving to the grid after the group has been released must enter the track through the grid after safety checks. Absolutely no scrubbing of tires from the time you leave the grid until you have exited pit lane and entered the course.

CLOTHING ATTIRE: Closed toe shoes are required on the grid and over the wall on pit lane. Crew members on pit lane must display their event credentials at all times while on pit lane. Please refer to the CFR Enduro rules for clothing requirements during the Enduro race.

PACE/SAFETY CAR: In addition to GCR 6.6.2. The field shall follow the PACE / SAFETY CAR as long as its emergency lights are flashing, even if it varies from the normal race course.

SOUND CONTROL: Sound will not be measured as the speedway has a waiver.

TIMING & SCORING: Each car is required during each of its on-track sessions to have a properly mounted and functioning AMB TRANX 260 or MyLaps X2 transponder. Transponder times are the official times for all competition vehicles and vehicles without a functioning transponder will not be timed. Pit Stop Timing (timing loops) may be in effect for the CFR Enduro. The required Pit stop will be 5 minutes plus entire pit lane transit time of 14 seconds at 40 mph. Cars with a short pit stop may be shown car number and "Short" sign at black flag stations. Drivers may pit for a drive-through or a stop & go penalty depending on length of pit stop shortage, or be penalized at race end; follow direction of Pit Lane staff. If the short pit stop penalty is not taken during the race, the traditional end of race calculation, using a pit lane transit time of 14 seconds at 40 mph, will be applied to calculate the penalty.

SCALES: Will be available during the open hours of tech on Saturday and Sunday, and at other times at the discretion of the Chief of Tech.

COURSE: Daytona International Speedway is a 3.54-mile road course. All races will start and finish at the start line located in the Tri-Oval area; the Tri-Oval is defined as the section of the track from Speedway 4 to the Road Course turn 1. At the start of each race, through the completion of the first lap, or any restart, no vehicle shall drop any wheels below the yellow line in the tri-oval area. Decision of Start Judges will be final and are non-protestable per the GCR and may result in a penalty. **Chicane on back stretch:** if you are unable to safely negotiate the turn into the chicane, you MUST bring your car to a complete stop before re-entering the course at the exit of the chicane and you MUST NOT gain an advantage on the vehicles in front of, or behind you, or a penalty may apply.

HARDSHIP LAPS: Hardship laps will be considered between run groups on Sunday, schedule and track condition permitting. Single lap out-in. Cars will be dispatched from the grid to pit lane.

PIT LANE: When exiting the track via pit lane, stay within the marked lane that starts at speedway 4, paralleling the apron until the turn off to pit lane. While traversing pit lane, keep to the far right (NASCAR Fast Lane). Pit lane speed limit is 40 mph, for all sessions. Failure to comply may result in penalty imposed by the Operating Stewards. **For the Enduro, pit lane transit time is 14 seconds at 40 mph.**

SPLIT STARTS: Group 6 will have a split start. Split starts in other groups will be permitted at the discretion of the *Chief Steward who must receive a request no later than April 12, 2023*, to be approved in advance.

LIGHTS ON BANKING: Flashing yellow lights are located at NASCAR Turns 1, 2, 3 & 4 and also at the Start stand. When illuminated, they have the same meaning as double yellow (full course) situation, or may indicate a black flag all. Due to the long distance after turn 7, pay attention approaching Start/Finish for flag condition. If a red flag needs to be displayed, lighting on the banking may not change, but the red flag ALWAYS has precedent over any other flag or light.

GARAGE SPACES: There are a limited number of garage spaces available and they may be selected on a first come, first served basis during the completion of online registration. The registrar maintains the right to re-assign garage selections to meet operational needs, or limit availability due to circumstances beyond CFR's control. Come prepared! Garage area parking is limited to select support vehicles only (at the discretion of the paddock marshal). **Crew/Driver/Guest street transportation vehicles and RV's are not permitted in the garage area. Unauthorized vehicles, parked in the garage area, will be towed from the garage area.** CFR assumes no responsibility for any damage that may result from the towing of unauthorized vehicles. Follow the direction of speedway personnel and/or the paddock marshal, their purpose is to ensure adequate parking and traffic flow for all competitors.

This is necessary to ensure sufficient space is available for all attendees and ensure a smooth flow of traffic within the Geico lots.
