You must meet all three of these criteria to be eligible for Express Tech. If eligible, you will only need to bring your vehicle logbook and registration slip to Tech. It is the driver's responsibility to ensure that his gear is compliant with the GCR. Tech will inspect gear and issue 2024 helmet stickers, preferably in the driver's paddock area, upon request. Vehicle inspections (e.g. new logbook, annual inspection, sign off on logbook notations, car number changes) will be available by appointment and/or signup and may be performed in the entrant's paddock.

SCALES: Availability of scales and times will be posted at Tech.

Each driver must hold a current SCCA Competition License per the GCR or a current license from an organization recognized by SCCA (see GCR appendix C.2.8.B and C.2.1 for the complete list). The SCCA requirement is satisfied by Probation Letters and Novice Permits with Drivers School requirements signed off.

REQUIRED DECALS AND PATCHES: SARRC rules require that the appropriate series' decals, stickers and/or patches be properly displayed on all cars and driver suits in these events. In addition, any Group or Event designation sticker issued at Registration must be displayed on the car for all sessions. SARRC decals must be displayed on the side of all cars entered in SARRC events. All drivers are required to permanently attach the SARRC patch to their driver's suit either above or below the SCCA patch or directly across from it on their suit front. (Out-of-division drivers are excluded from required decals and patches.)

CAR ELIGIBILITY: These events are open to all vehicles conforming to the current GCR for regional racing, SEDIV regional racing, and/or Atlanta Region regional racing rules. SEDIV regional racing rules for CF, IT7, ITO, SC, SMSE, SM-T, MXP, SPO, and SPU are available at www.SEDIVRacing.com. TIMING & SCORING: All cars are required to use fully operational MyLaps/AMB TranX260 or X2 transponders, and the driver is responsible for providing correct information to Timing & Scoring. New X2 transponders must be activated before you arrive at the track. Make sure your transponder is on and functioning for ALL SESSIONS.

PADDOCK/PARKING INFORMATION: We ask that you work with us to accommodate most of your wishes regarding paddock parking. To that end, paddock parking personnel will assign, and direct parking based on the size of your vehicles per instructions from the Paddock Chief using the following guidelines:

- Single car set-ups will get a spot twenty (20) feet wide that is long enough to accommodate the tow vehicle and trailer if possible. All awnings and support equipment must fit within those confines. This allows the maximum amount of parking in desired areas.
- Multiple car teams and/or participants providing services to the Atlanta Region will be located to maximize their efficiency.
- Paddock spots with power are very limited. The priority is to provide electrical hook-ups to the maximum number of competitors.
- We request that open trailers not actively involved in support of a race vehicle be removed from the main paddock areas.

- For Safety reasons the county Fire Marshal requires that access lanes be kept open. Vehicles parked in no-parking areas will be towed without warning.

June 15 - 16, 2024

QUALIFYING: Saturday's race grids will be determined by the fastest lap during the morning qualifying sessions. Sunday's race grids will be determined by the fastest lap during the Saturday qualifying sessions or the Saturday races, whichever is the faster time. Due to the "seamless" nature of the qualifying sessions, cars will be gridded as they arrive for their sessions. The second group (when listed) should stage in the area before the false grid and enter the grid immediately after the preceding group enters the track. If a car's time cannot be resolved due to incorrect entry information, inoperable transponder and/or incorrect/illegible car numbers, that car may not receive a time for that session. It is the driver's responsibility to verify that entry data is accurate, and that the correct operating transponder is installed on the race vehicle.

SPLIT STARTS: Any race group may be given a split start at the discretion of the Chief Steward.

IMPOUND: At the conclusion of each race the top three finishers in each class must proceed directly to the tech area to be weighed and inspected. **IF IN DOUBT, REPORT TO IMPOUND.** The competitor shall be physically and financially responsible for performing any required disassembly/reassembly. **Do NOT run your engine in the Tech area.**

CONTACT: GCR Section 6.11.1.E requires drivers involved in significant body contact to stop for review of the incident by stewards. Drivers shall satisfy this requirement by reporting to the steward during Impound of their race group.

RESULTS: Live timing will be available through the apps Race Monitor and RaceHero. Live timing information is neither official nor protestable.

START TIMES: Schedule times are cars on course.

EVENT SCHEDULE / RUN GROUPS: **THE SCHEDULE IS TIME SUGGESTED; SESSION TIMES ARE PROVIDED FOR PLANNING PURPOSES ONLY. Actual session start times may vary from the published schedule. It is the driver's responsibility to pay attention to activity on track.** The schedule or run groups may only be changed at the discretion of the Chief Steward, with concurrence by the Event Chair, depending on pre-race entry counts or as needed to accommodate situations during the event.
