- B. TECHNIAL INSPECTION:** Some cars in impound may be selected for inspections that involve disassembly by competitors. This could include manifolds, induction systems, cylinder and/or other components in the drivetrain, powertrain, suspension. Parts may be removed and examined for porting and polishing, compression ratio, bore, stroke, and displacement or other measurements. At the discretion of the Race Director, additional inspection may be required. The Race Director may, at any time during the event, require all or some cars in each class to be impounded for inspection. The competitor shall be physically and financially responsible for performing any required disassembly/reassembly. The Series Chief Technical Inspector will report any finding of non-compliance to the Race Director who will then determine the need for a Chief Steward's Action (CSA), or a Request for Action (RFA).

SPEC MIATA COMPLIANCE:** At post-race inspection, Spec Miata participants may be instructed by the designated Class Compliance Chief (CCC) to remove parts, including but not limited to the cylinder head, for disassembly and/or inspection. Competitors are responsible for performing required disassembly and/or reassembly of their car, as well as any resulting expenses incurred. The CCC will report any findings of non-compliance to the Race Director, who will then determine the need for a Chief Steward's Action (CSA) or Request for Action (RFA).

**SPEC MIATA TIRE LIMITING PROGRAM:** A tire limiting program will be in effect for all Spec Miata entries at this event. A mandatory impound for all SM competitors is required after the first dry qualifying session. It is the competitor's responsibility to ensure their tires are marked prior to going on track for the next session. Before the first dry qualifying session, competitors will mount four Hoosier SM 7.5 tires for marking to use during the entire weekend. SMW tires will not be marked.

The Hoosier SM 7.5 must be new stickers, used tires, or any of those combinations. The competitor can rotate these tires to any location on their car. If running multiple classes, the competitor does not need to run marked tires in non-SM sessions.

If a competitor flat spots or damages any of the four marked tires, the competitor must find the SM CCC for inspection. The competitor will be allowed to substitute alternate used tire(s) to replace the damaged tire(s). New tires are not an option as a replacement tire for a damaged tire.

- D. **CONTACT:** GCR 6.11.1.E requires that the driver and car involved in significant body contact to stop for review of the incident by stewards. The drivers and cars involved must either stop at the Black Flag (Stewards of the Course) station at Pit Central for review of the incident by the stewards before entering the Paddock, or report to the Race Director or Chief Steward in Impound within 30 minutes after the session. Drivers who do not satisfy this requirement will be referred to the Stewards of the Meeting (SOM).

In the event a full course yellow results in dispatch of the safety car, the safety car will enter the racing surface at pit out.
- I. **DISABLED CARS:** Disabled or damaged cars may be removed from the course and delivered to a central location. If the car has sustained body/chassis damage it will be released to the driver/crew after tech has made appropriate notations in the vehicle log book. If the car requires wrecker support to return to its paddock location, there may be a delay depending on the availability of wreckers or flat tows.
- J. **RESULTS:** Live timing may be available during the event; live timing is neither official or protestable. Unless otherwise announced, live timing may be available on the SCCA.com event page, or via the Race Monitor or Race Hero App available for iPhone and Android phones.
