MODIFIED CLASS

Modified

All stock Euro cars may run in stock classes, however, they may be bumped up one class by driving event chairman.

Any Mercedes-Benz with performance enhancements not specifically allowed under MBCA, Inc. NEC rules will be considered modified.

The above classes should be combined within the main group. Special cases will be determined by the driving event chairman. The competitor must be informed of his assigned class prior to running.

Please note: Beginning with the Model Year 1994, M-B internal sales nomenclature was radically revised. For clarity in referencing vehicles produced since 1994, M-B USA LLC designations are used here.

Key:

- A (suffix)= cabriolet
- C (suffix)= coupe
