Cars with lane change assist, and/or auto-braking MUST have these features disabled before each session. Drivers MUST demonstrate ability to turn off these features before being allowed to participate.

**NUMBERS:** Please choose a number for your vehicle at the time of registration. If you do not specify a number, at the time of registration, one will be assigned to you. Be prepared to have this number displayed on both sides of your car, in a contrasting color – it must be legible from 100 feet away. We will provide painters' tape in many colors at the event should you need to put on some numbers.

Please make the Event Chair aware of this arrangement ahead of time. Three drivers sharing a car is not allowed. Please notify your tech inspector that there will be two drivers sharing a car to ensure you have sufficient brake pad/tire thickness for the entire event.

Failure to pass the tech inspection after registration closes does not guarantee a full return of your registration fee. No-shows at the event, and cancellations after registration closes, cannot be refunded.
