

I Didn't Know That! Historic Cincinnati Rally

Instructions

This rally will test your knowledge of historic Cincinnati while demanding precise planning, strategy, and urban driving skills. At the start, you will be given a clue sheet containing several facts about various landmarks throughout Cincinnati. You must figure out what the landmarks are, go to them, and take a picture of yourself or your team mate (or both) with the landmark in the picture. Some clues will be obvious, but some won't be. You may use whatever means necessary to figure out the clues, including stopping and asking for directions!

The winner will be selected by:

The team that...

1. Gets the most correct answers (bonus questions not included)
2. Travels the least number of miles from start to finish
3. Completes the rally in the least amount of time

If necessary, a tie breaker will be used in this order:

The team that...

1. Gets the most bonus questions/tasks correct
2. Travels the furthest to get to the rally (home address to the park using Google maps)
3. Has the oldest car
4. Has the most miles on their car
5. Bribes the rally master

All attempts have been made to design this rally so that you'll have parking available while out of your car. Some parking fees may apply, so planning each stop strategically is important. Being a weekend, you will most likely encounter traffic and a fair amount of pedestrian activity. Please be cautious, courteous, and careful. Citations for speeding or illegal parking are grounds for disqualification.

At the starting line, the rally master will record your time and mileage going out. When you return, please record your mileage on your clue sheet and report to the rally master. Your time in will be recorded when you check in with the rally master.
