

AUTOSLALOM RACING SCHOOL '19

INFO / LEVEL 2

Drivers, it's time for Autoslalom Racing School Level 2! Comfort zones will be broken, traction curves will be climbed higher than before, and hands and feet will be massaged, (not literally) into specimens a surgeon would be proud of. At Level 2, we push our students and delve deeper into the nuances of technical and mental racing skill sets. Over/underdriving, vision & analytical thinking, slip angle, feeling & hearing, and progressive inputs are just a few areas of focus. Big seat-time + our best instructors, Level 2 = faster.

THINGS TO KNOW

Get a good night's sleep! A full day of racing and learning is demanding. Along with that, prepare for the weather. Sunscreen, wind/rain protection are all necessities.

Water is one of the keys to mental acuity and autocross demands that you turn your brain all the way on! Bring LOTS of water to stay hydrated and sharp.

Personal belongings that reside in your car need to be removed as a safety precaution, so bring something that can accommodate them in pit lane while you're on track if need be.

Bring a fully functional car with at least 2/3 of a tank of fuel. It's hard to focus on learning if you're worried about your car breaking or running out of gas.

Instructors will drive your car periodically, (with you in it, of course). It's the best way to communicate certain aspects of driving. We hope you don't mind!

A light lunch (Quiznos sandwiches) will be provided. If you have any dietary restrictions or allergies, please bring a bagged lunch.
