The SCCA strives to ensure ALL participants at its events and activities enjoy a welcoming environment. Supplemental Regulations, April 5 – 7, 2024 SARRC, REGIONAL & TE (cont'd)

NUMBERS	Permanent SEDIV numbers will be honored for all entries received at least 10 days prior to the event, with the exception of conflicts arising from alterations of the groups. In this situation, the earliest entry received will establish priority. Any car on the track with a number not in agreement with the number assigned at registration, and on the tech card, will not be allowed to continue until the number on the car agrees with that at registration and on the tech card. Numbers must conform to the GCR specifications and must satisfy the Chief of Timing and Scoring.
CHIEF STEWARD'S LETTER/DRIVERS' MEETING	The Chief Steward's Driver's Meeting Letter, if issued, is an official addendum of the Supplemental Regulations. There will be a meeting for all SARRC drivers at lunch time Saturday in the Paddock Media Center. Attendance is mandatory.
TRACK	<u>All races will be run on Homestead-Miami Speedway's 2.30 mile road course utilizing the oval track turns 3 & 4.</u> Any driver who puts a wheel below the white line on the front straight before turn one on any lap to better his position may be subject to a penalty as determined by the Chief Steward. White flag at all stations will be displayed for the first lap of the practice session for flag station identification. Flashing yellow track lights when displayed on the oval banking are the same as double yellow flag / full course caution.
SCALES	Available from 8:00 A.M. to 4:00 P.M., except during impound.
SOUND CONTROL	The GCR requirement is waived.
INTOXICANTS	GCR will be strictly enforced. Additionally, the consumption of alcoholic beverages by participants within the facility is forbidden until ALL racing activities have concluded for the day. Penalties will be assessed for any violations.
RADIOS	Race Control is now on a digital network. Tune in to channel 464.5250 MHz for analog scanners. For the safety of competitors and SCCA race staff, failure to keep this frequency clear will result in action under rights specified in the GCR. DO NOT use these frequencies for personal communications. Crew members are encouraged to monitor these frequencies to alert their driver of the communications.
QUALIFYING, GRID & RESULTS	The fastest lap recorded by T&S in Qualifying sessions will determine the grid position for the group's Saturday Regional race. The Car/Driver combination will be gridded for the Sunday Feature and 20 minute Regional race based on the fastest time recorded for the car/driver during either the Saturday Qualifying sessions or Saturday Regional Race. Grid position is earned and assigned on the car/driver combination; second drivers without qualifying times must start from the back of the grid. Cars reporting to the grid after the one (1) minute warning will lose their grid position. Grid lists and results may be posted at Timing & Scoring. When a car/driver is disqualified/excluded, all other cars below him/her will move up one finishing position. All cars must have operating AMB transponders which are available for rent. Failure to have an operating AMB transponder may result in timing and/or scoring inaccuracies. A closed black flag with the car number and a sign with the letter "T" may be displayed at Start/Finish for cars whose transponders are not operating properly. An attempt will be made to alert the driver accordingly after the first infraction.
IMPOUND	<p>Top 3 finishers in each class of the SARRC Race are to report to impound and will be weighed and a minimum of two compliance items may be checked by Tech, except for non-SARRC class cars who will not be weighed, but must still report impound. If your finishing position is improved by disqualification of another competitor, and that disqualification puts you in the top three (3) positions, you will not be required to go to impound.</p> <p>Other impound requirements will be determined by the Chief Steward at the event. If you are in doubt of your finishing position, it is suggested you go to impound.</p>
PACE / SAFETY CAR:	In addition to GCR sections 6.5.2.B & 6.6.2 the following is added: In order to more safely control the field or allow for quicker emergency response, all drivers are required to follow the Pace / Safety Car (with lights flashing) wherever it goes, including, but not limited to, pit lane or course short cuts.
