

Rulebook Proposal

Rotax Classes

Reason – Most people don't realize what engines are available to run in our TaG class, TaG Junior, Brackets etc. This causes rules to not get updated over the years. I propose we add the Rotax classes in the same way we have KA100. National engine rules, weights, and blue tires like KA100.

Add:

- a. Add Micro MAX and Mini MAX
 - using national rules and ages
 - Micro stated as 8 to 12, Mini as 10 to 14
- b. Add Junior MAX
 - using national rules and ages
 - Jr as 12 to 15
- c. Club MAX using the Junior engine package
 - ages 16 and up

Club tires for all classes as Blue Envico
