### The route:

Overview:

We are starting early on Monday July 8th to avoid driving during the hottest part of the day!

The return trip will be on Friday, July 12th.

The route I have planned will start at a gas station just off I-25 in Fort Collins, CO and travel to Cheyenne, WY via I-25. In Cheyenne, WY, we will be diverting to Highway 85 until we reach Cheyenne Crossings, SD. At this point we will switch to Highway 14A for the final drive into Spearfish.

The total distance from the starting location is approx. **322 miles**

There are plenty of towns to stop for fuel and food along the way.

I have planned our stops based on the smallest fuel tank size as well as length of time spent driving. However additional stops can be added to the trip as needed/requested.

Each fuel stop is approx: **2hrs of driving and approx 140 miles max**

Each rest stop is approx: **1hr between fuel stops**
