RESULTS

FLAGS AND THEIR MEANINGS:

- **Yellow, standing** – You are approaching an incident where your and other's safety is at risk. The track boundaries may be clear but there is immediate danger to you or others beside the track. Slow significantly and proceed through the incident at a reduced speed. There is no passing from the Yellow Flag until past any emergency incident(s). The yellow-flag zone starts at a perpendicular line across the track from the flag and ends at a perpendicular line across the track from the last component of the incident causing the Yellow Flag. The last component may be the car, driver, responding officials, other vehicles and/or large debris.
- **Yellow, waving** - You are approaching an incident that has great danger to you and others. The track may be partially or completely blocked. Slow significantly and be prepared to stop. All efforts should be made to proceed through a waving Yellow Flag in single file order. There is no passing from the Yellow Flag until past any emergency incident(s). The yellow-flag zone starts at a perpendicular line across the track from the flag and ends at a perpendicular line across the track from the last component of the incident causing the Yellow Flag. The last component may be the car, driver, responding officials, other vehicles and/or large debris.
- **Red & yellow, striped** – This flag is commonly known as the "Debris Flag" and indicates a slippery condition exists, or debris is present on the racing surface. This flag is displayed standing and may be put away or "dropped" after everyone has a chance to see it, but the debris or slippery condition may still exist.
- **Red** – Displayed at each station and on the Starter's stand. **EXTREME DANGER—THE SESSION HAS BEEN STOPPED.** Come to an immediate, controlled stop at the side of the race track (preferably before and within sight of a staffed station or where specified in the event Supplemental Regulations). When released by an official, proceed cautiously to pit lane. Once a Red Flag has been displayed, it will not be withdrawn until all cars have come to a stop.
- **Blue / yellow stripe** – a faster car is following. Allow it to pass at the next passing zone. Acknowledge the blue flag with a small wave to both the worker and the following car. This courtesy prevents tailgating, mirror driving, and promotes safety and reduces aggression. Observe the Blue/yellow striped flag.
- **Black** – enter the pits at the next opportunity to consult with an event official.
- **Checkered** - Displayed at the end of a session to indicate that the session is finished. Continue cautiously to pit lane.
